#### To the Dealer

#### TO THE DEALER

Read manual instructions and safety rules. Make sure all items on the Dealer's Pre-Delivery and Delivery Check Lists are completed before releasing equipment to the owner.

The dealer must complete the Warranty Registration found on the Dealer Portal website located at dealer.jm-inc.com and return it to J&M Mfg. Co., Inc. at the address indicated on the form. Warranty claims will be denied if the Warranty Registration has not been submitted.

#### **EXPRESS WARRANTY:**

J&M Mfg. Co. Inc. warrants against defects in construction or materials for a period of ONE year. We reserve the right to inspect and decide whether material or construction was faulty or whether abuse or accident voids our guarantee.

Warranty service must be performed by a dealer or service center authorized by J&M Mfg. Co., Inc. to sell and/or service the type of product involved, which will use only new or remanufactured parts or components furnished by J&M Mfg. Co., Inc. Warranty service will be performed without charge to the purchaser for parts or labor based on the Warranty Labor Times schedule. Under no circumstance will allowable labor times extend beyond the maximum hours indicated in the Warranty Labor Times schedule for each warranty procedure. The purchaser will be responsible, however, for any service call and/or transportation of the product to and from the dealer or service center's place of business, for any premium charged for overtime labor requested by the purchaser, and for any service and/or maintenance not directly related to any defect covered under the warranty. Costs associated with equipment rental, product down time, or product disposal are not warrantable and will not be accepted under any circumstance.

Each warranty term begins on the date of product delivery to the purchaser. Under no circumstance will warranty be approved unless (i) the product warranty registration card has been properly completed and submitted to the equipment manufacturer, and (ii) a warranty authorization number has been issued by the equipment manufacturer. This Warranty is effective only if the warranty registration card is returned within 30 days of purchase.

This warranty does not cover a component which fails, malfunctions or is damaged as a result of (i) improper modification or repair, (ii) accident, abuse or improper use, (iii) improper or insufficient maintenance, or (iv) normal wear or tear. This warranty does not cover products that are previously owned and extends solely to the original purchaser of the product. Should the original purchaser sell or otherwise transfer this product to a third party, this warranty does not transfer to the third party purchaser in any way. J&M Mfg. Co., Inc. makes no Warranty, express or implied, with respect to tires or other parts or accessories not manufactured by J&M Mfg. Co., Inc. Warranties for these items, if any, are provided separately by their respective manufacturers.

THIS WARRANTY IS EXPRESSLY IN LIEU OF ALL OTHER WARRANTIES OR CONDITIONS, EXPRESS, IMPLIED OR STATUTORY, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE.

In no event shall J&M Mfg. Co., Inc. be liable for special, direct, incidental or consequential damages of any kind. The exclusive remedy under this Warranty shall be repair or replacement of the defective component at J&M Mfg. Co., Inc's. option. This is the entire agreement between J&M Mfg. Co., Inc. and the Owner about warranty and no J&M Mfg. Co., Inc. employee or dealer is authorized to make any additional warranty on behalf of J&M Mfg. Co., Inc.

The manufacturer reserves the right to make product design and material changes at any time without notice. They shall not incur any obligation or liability to incorporate such changes and improvements in products previously sold to any customer, nor shall they be obligated or liable for the replacement of previously sold products with products or parts incorporating such changes.

#### **SERVICE:**

The equipment you have purchased has been carefully manufactured to provide dependable and satisfactory use. Like all mechanical products, it will require cleaning and maintenance. Lubricate the unit as specified. Observe all safety information in this manual and safety signs on the equipment.

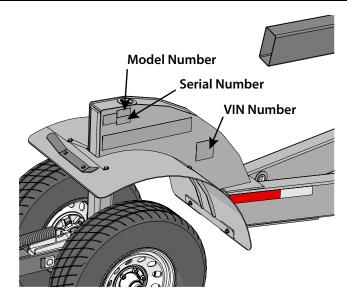

For service, your authorized J&M dealer has trained mechanics, genuine J&M service parts, and the necessary tools and equipment to handle all your needs.

Use only genuine J&M service parts. Substitute parts may void warranty and may not meet standards required for safety and satisfactory operation. Record the model number and serial number of your equipment in the spaces provided:

| Model No: TB-6000 | Serial No:               | Date of Purchase:                               |  |
|-------------------|--------------------------|---|--|
| Purchased From:   |                          |   |  |
|                   | Provide this information | n to your dealer to obtain correct renair parts |  |

### **Serial Number Location**

| Serial Number: | ·<br>• |  |  |
|----------------|--------|--|--|
|                |        |  |  |

Model Number:\_\_\_\_\_

Standard practice when ordering parts or obtaining information from your dealer requires the serial number and model number. Have numbers available before making contact.

### **General Information**

#### TO THE OWNER:

The purpose of this manual is to assist you in operating and maintaining your header transport in a safe manner. Read it carefully. It furnishes information and instructions that will help you achieve years of dependable performance and help maintain safe operating conditions. If this machine is used by an employee or is loaned or rented, make certain that the operator(s), prior to operating:

1. Is instructed in safe and proper use.

2. Reviews and understands the manual(s) pertaining to this machine.

Throughout this manual, the term IMPORTANT is used to indicate that failure to observe can cause damage to equipment. The terms CAUTION, WARNING and DANGER are used in conjunction with the Safety-Alert Symbol, (a triangle with an exclamation mark), to indicate the degree of hazard for items of personal safety. When you see this symbol, carefully read the message that follows and be alert to the possibility of personal injury or death.

This Safety-Alert symbol indicates a hazard and means ATTENTION! BECOME ALERT! YOUR SAFETY IS INVOLVED!

**DANGER** Indicates an imminently hazardous situation that, if not avoided, will result in death or serious injury.

**WARNING** Indicates a potentially hazardous situation that, if not avoided, could result in death or serious injury, and includes hazards that are exposed when guards are removed.

CAUTION Indicates a potentially hazardous situation that, if not avoided, may result in minor or moderate injury.

**IMPORTANT** Indicates that failure to observe can cause damage to equipment.

**NOTE** Indicates helpful information.

### Safety Rules

#### . ATTENTION! BECOME ALERT! YOUR SAFETY IS INVOLVED!

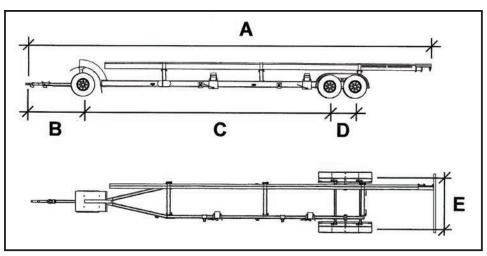

Safety is a primary concern in the design and manufacture of our products. Unfortunately, our efforts to provide safe equipment can be erased by an operator's single careless act. In addition, hazard control and accident prevention are dependent upon the awareness, concern, judgment, and proper training of personnel involved in the operation, transport, maintenance and storage of equipment.

Make certain that the operator(s), prior to operating is instructed in safe and proper use and reviews and understands the manual(s) pertaining to this machine. Also make certain that the operator(s) reviews and understands the operator's manual of the tow vehicle prior to hooking up or operating the SpeedTender.

Read this manual before you operate this machine. If you do not understand any part of this manual, or need more information, contact the J&M or your authorized dealer.

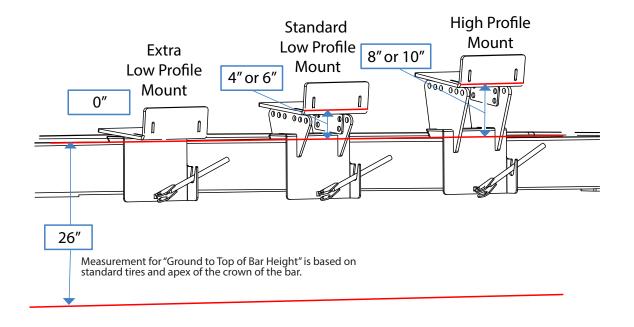

- 1. Understand that your safety and the safety of other persons are measured by how you service and operate this machine. Know the positions and functions of all controls before you try to operate them. Check all controls in a safe area before starting your work.
- The safety information given in this manual does not replace safety codes, federal, state, or local laws. Ensure your machine has the proper equipment as designated by local laws and regulations.
- 3. A frequent cause of personal injury or death is from persons falling off equipment and being run over. Do not permit persons to ride on this machine.
- Secure safety chain to towing vehicle before transporting. Do not transport without safety chains being attached to tow vehicle. IMPORTANT: USE ONLY 2-5/16" BALL HITCH TO TRANSPORT UNIT.
- 5. Use good judgment when transporting on a highway. Always maintain complete control. Regulate speed to road conditions. WARNING: BE SURE ALL LIGHTS ARE WORKING PROPERLY BEFORE HIGHWAY TRAVEL.
- Travel speeds should be such that complete control and machine stability is maintained at all times.
- 7. Where possible, avoid operating near ditches, embankments and holes. Reduce speed when turning, crossing slopes and rough, slick or muddy surfaces.
- 8. Make sure that the header is fastened securely to the transport before moving.
- 9. Make sure that everyone is clear of equipment before applying power or moving the machine. NEVER position yourself under or near header when mounting on header transport.
- 10. Never adjust, service, clean or lubricate the header transport until all power is shut off.
- 11. Ensure the implement is fastened securely to the towing unit.
- 12. Before unhooking the implement from the towing unit, properly block the wheels to prevent the implement from moving.
- 13. Never overload the header transport. Overloading the header transport is dangerous and can cause extensive damage.
- 14. Use caution when transporting. Be alert of the transport unit's overall width when approaching obstacles, such as post signs and poles, along the road. Check the transport width of the unit to ensure clearance before entering bridges.
- 15. COMPLY WITH ALL SAFETY WARNINGS AND CAUTIONS IN THIS MANUAL AND IN THE COMBINE OPERATOR'S MANUAL.

### **Bolt Torque Specifications**

Always tighten hardware to these values unless a different torque or tightening procedure is listed for specific application. Fasteners must always be replaced with the same grade as specified in the manual parts list. Always use the proper tool for tightening hardware. Make sure fastener threads are clean and you start thread engagement properly. **Use these values when tightening all bolts and nuts with the exception of wheel nuts.** 

**SAE Fasteners** 

| C TI IC:                    |             |          |           |           |

| 7/8″-14                     | 474         | 355      | 669       | 502       |

### Stud and Wheel Nut Torque Specifications

Always tighten hardware to these values unless a different torque or tightening procedure is listed for specific application. Fasteners must always be replaced with the same grade as specified in the manual parts list. Always use the proper tool for tightening hardware. Make sure fastener threads are clean and you start thread engagement properly. **Use these values when tightening all studs and wheel nuts.** 

| Stud     | Tightening Torque |
|----------|-------------------|
| 1/2"-20  | 120 ft-lbs        |
| 9/16"-18 | 170 ft-lbs        |
| 5/8"-18  | 350 ft-lbs        |
| 3/4"-16  | 400 ft-lbs        |
| 20mm     | 475 ft-lbs        |
| 22mm     | 640 ft-lbs        |

**TIGHTENING WHEEL NUTS:** Torque 9/16"-18 lug nuts on wheels to 170 ft-lbs during initial operation of the header wagon. Check for proper torque after every 10 hours of use. Failure to do so may damage wheel nut seats. Once seats are damaged it will become impossible to keep nuts tight.

### Operations/Maintenance

DANGER: BE CERTAIN THAT ALL POWER IS SHUT OFF BEFORE SERVICING THE HEADER TRANSPORT.

#### **Before the Header Transport is Put into Service:**

- Has the Slow-Moving Vehicle sign been properly positioned at the rear of the header transport?
- Have all danger, warning, caution and important signs on the equipment been read and understood? If employees or others use or are near this equipment, make sure that they also have read and understood all danger, warning, caution and important signs on the equipment and have also read the operator's manual.
- Are all braces, bolts, nuts, studs and lug nuts properly fastened?
- Has the header transport been properly fastened to the towing unit? Use a good quality hitch pin with clip and safety chains.

#### **Safety Chain User Instructions**

- Secure the safety chain by looping it around the tongue support located on the underside of the hitch tongue and connect to the towing machine's attaching bar.
- Do not allow more slack than necessary for articulation.
- Do not use an intermediate support as the attaching point.
- Store the safety chain by securing it around the tongue.
- Replace the safety chain if one or more links or end fittings are broken, stretched or otherwise damaged or deformed.

WARNING: Check safety chains for broken, stretched or damaged link or end fittings. Replace chains if found to be damaged. Do not weld safety chains.

#### **Operating Instructions/Maintenance**

Adjust the brackets on the header transport to best fit your make and model header.

Note: When mounting the header, NEVER position yourself under or near the header. Securely fasten the header to the header transport.

- Do not exceed the load and size limits of the unit.
- Keep the tires properly inflated. Both under inflation and over inflation can greatly reduce tire life. Inflate 235-85 R16 tires to 80 psi.
- Inspect bracing and welds periodically and repair immediately, if needed. Failure to repair could cause extensive damage and greatly reduce the life of the unit.
- Repack the bearings in the hub assembly once a year or as needed. Use a good quality LS EP2 severe duty, high shock load, lithiumbased grease.
- Grease the ball or king pin using the zerk on the front gooseneck assembly every 8 hours or as needed.
- Check the wheel nuts often and keep them properly tightened.

#### **Braking System Requirements**

- Stopping distance increases with speed and weight of towed loads and on slopes. Towed loads with or without brakes that are too heavy for the towing unit or are towed too fast can cause loss of control. Consider the total weight of the equipment and its load. Note: Observe these recommended maximum road speeds, or local speed limits which may be lower.
- If towed equipment does not have brakes, do not travel more than 20 mph (32 km/h) and do not tow loads more than 1.5 times the tractor weight.
- If towed equipment does have brakes, do not travel more than 25 mph (40 km/h) and do not tow loads more than 4.5 times the tractor weight.
- If towed equipment does have a Licensing Package, follow state and local speed limit laws and do not tow loads more than 4.5 times the towing units weight.
- Ensure the load does not exceed the recommended weight ratio. Use additional caution when towing loads under adverse surface conditions, when turning, and on inclines.

**DANGER: Tow loads safely.** 

### Repair Parts List and Diagrams

When performing maintenance work, wear sturdy, rough-soled work shoes and protective equipment for eyes, hair, hands, hearing and head. Follow the Operator's Manual instructions to ensure safe and proper maintenance and repair.

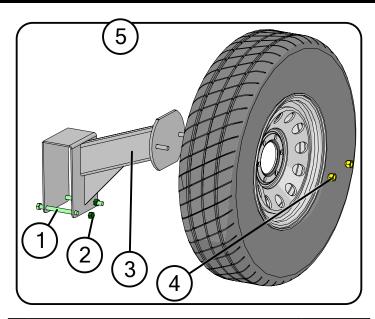

Your local, authorized dealer can supply genuine replacement parts. Substitute parts may not meet original equipment specifications and may be dangerous.

MAKE SURE ALL POWER IS SHUT OFF BEFORE PERFORMING ANY MAINTENANCE OR REPAIR WORK.

### Header Mounts and Tie-Down Assembly

|    | Description  | Part No.  |
|----|--|-----------|
| 1  | Removable Header Stop Gusset   | JM0003075 |
| 2  | Upper Header Wagon Mount   | JM0014351 |
| 3  | 3/16" x 2-1/2" Hair Clip Pin (316HP)   | JM0001657 |
| 4  | Low Profile Bottom Mount Weldment 4" x 8" (Front)                                    | JM0037707 |
| 5  | 5/8"-11 x 6-1/2" Gr5 Z Carriage Bolt   | JM0001651 |
| 6  | 3/4" L Pin (10-9/32" Length)   | JM0003076 |
| 7  | 1/2"-13 Gr2 Z Centerlock Hex Nut   | JM0001511 |
| 8  | 1/2"-13 x 5-1/2" Gr5 Z Hex Bolt  | JM0001498 |
| 9  | 2"Wide x 60"Tie Down Strap with Double J Hook Sewn In (TDS-1)                        | JM0029979 |
| 10 | 2"Tie-Down Ratchet (10,000 lb) (RA-1)  | JM0003084 |
| 11 | Tie-Down Bracket 4" x 8"   | JM0058789 |
| 12 | 5/8" USS Flat Washer   | JM0003073 |
| 13 | Header Saddle Mount Bolt (Coupler)   | JM0001653 |
| 14 | Clamp Handle Weldment (CHA2)   | JM0001656 |
| 15 | Extra Low Profile Mount 4" x 8" (Front)  | JM0055120 |
| 16 | Extra Low Profile Mount 4" x 8" (Back)   | JM0055119 |
| 17 | Low Profile Bottom Mount Weldment 4" x 8" (Back)                                     | JM0030696 |
| 18 | High Profile Bottom Mount Weldment 4" x 8" (Front)                                   | JM0055116 |
| 19 | High Profile Bottom Mount Weldment 4" x 8" (Back)                                    | JM0045643 |
| 20 | Extra Low Pro Mount Weldment for 4" x 8" Tube (4-1/2" Lip) (Front)                   | JM0058032 |
| 21 | Extra Low Pro Mount Weldment for 4" x 8" Tube (4-1/2" Lip) (Back)                    | JM0058033 |
| 22 | 3-1/4" High Base Weldment for 4" x 8" Tube with Upper Mount (4-1/2" Lip) (Front)     | JM0058029 |
| 23 | 3-1/4" High Base Weldment for 4" x 8" Tube with Upper Mount (4-1/2" Lip) (Back)      | JM0058030 |
| 24 | 6-3/4" High Base Weldment for 4" x 8" Tube with Upper Mount (4-1/2" Lip) (Front)     | JM0058026 |
| 25 | 6-3/4" High Base Weldment for 4" x 8" Tube with Upper Mount (4-1/2" Lip) (Back)      | JM0058027 |
| 26 | Extra Low Profile Header Mount Assembly for 4" x 8"Tube, 4-1/2" Lip (Set)            | JM0058034 |
| 27 | Header Mount Assembly 3-1/4" High Base for 4" x 8"Tube, Upper Mount 4-1/2" Lip (Set) | JM0058031 |
| 28 | Header Mount Assembly 6-3/4" High Base for 4" x 8"Tube, Upper Mount 4-1/2" Lip (Set) | JM0058028 |

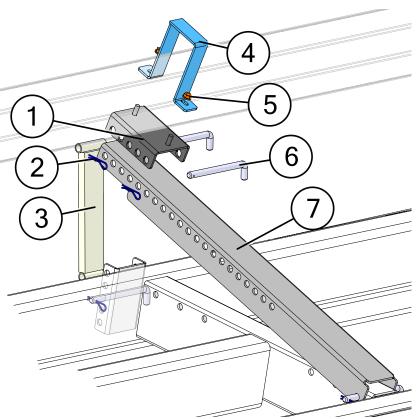

# Rear Upper Bar Support

|    | Description                                     | Part No.  |
|----|---|-----------|
| 1  | 3/4"-10 Gr2 Z Centerlock Hex Nut                | JM0002147 |
| 2  | 3/4"-10 x 2" Gr5 Z Hex Bolt                     | JM0002106 |
| 3  | Knee Brace Bolt On Lower Weldment               | JM0030418 |
| 4  | Splice Clamp for 4" x 8" Top Tube               | JM0012934 |
| 5  | 1/2"-13 x 3-1/2" Gr5 Z Hex Bolt                 | JM0009914 |
| 6  | 1/2"-13 Gr2 Z Centerlock Hex Nut                | JM0001511 |
| 7  | Knee Brace Clamp Lower Weldment                 | JM0030417 |
| 8  | Cotter Pin (for 1" Diameter Clevis Pin)         | JM0003064 |
| 9  | 1"x 3" Clevis Pin with Cotter Pins              | JM0019407 |
| 10 | HD Adjustable Pac Man Weldment Left Hand Thread | JM0030422 |
| 11 | 1-1/4"-12 Gr5 PN LH Hex Nut                     | JM0019931 |
| 12 | Knee Brace Turnbuckle Center Pipe Weldment      | JM0030420 |
| 13 | 1-1/4"-12 Gr5 PN RH Hex Nut                     | JM0019930 |
| 14 | HD Adjustable Pac Man Weldment                  | JM0021417 |
| 15 | Knee Brace Turnbuckle Assembly                  | JM0030427 |

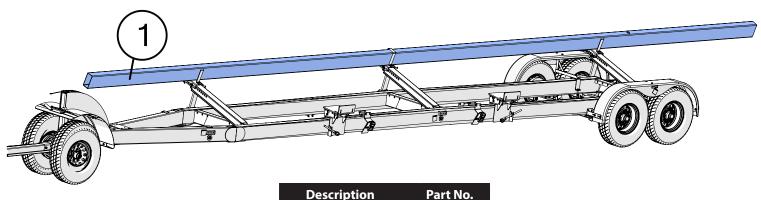

# Lifting Arms & Props

22

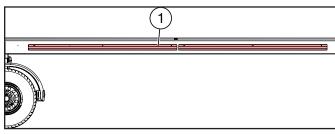

|   | Description                             | Part No.  |
|---|---|-----------|
| 1 | Upper Bar Slide Mount (UBSM-3)          | JM0015133 |
| 2 | 3/16" x 2-1/2" Hair Clip Pin (316HP)    | JM0001657 |
| 3 | Upper Bar Support Arm (UBSA-3)          | JM0003077 |
| 4 | Upper Bar Clamp (4x8) (UBC-3)           | JM0003081 |

### MacDon FD2 Extensions

TB-6000-48 or TB-8000-48 Specific Parts

Picture below shows the suggested set up for your FD2 MacDon header.

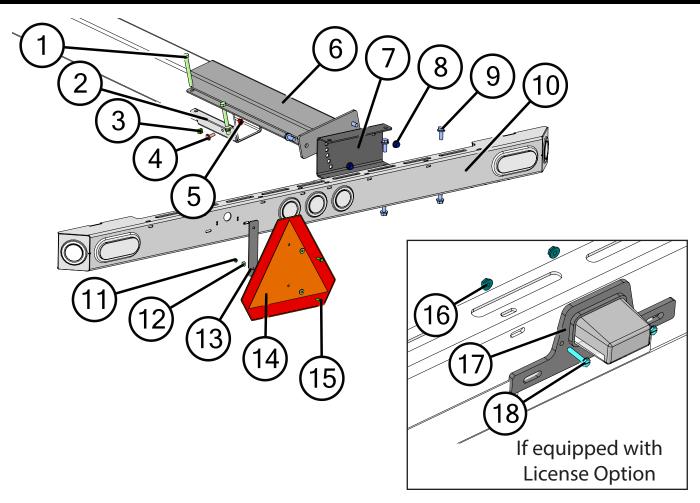

# MacDon FD2 Extensions

|    | Description  | Part No.  |
|----|--|-----------|
| 1  | Upper Bar Clamp (4x8) (UBC-3)  | JM0003081 |
| 2  | 1/2"-13 Gr5 Z SF Hex Nut   | JM0002153 |
| 3  | Lifting Arm 10" Extension Weldment   | JM0079958 |
| 4  | 3/4"-10 x 2" Gr5 Z Hex Bolt  | JM0002106 |
| 5  | Lifting Arm with Gusset Weldment - 60" Hole Spread (4WS)                     | JM0080106 |
| 6  | 3/4"-10 Gr2 Z Nylon Locking Hex Nut  | JM0026756 |
| 7  | 3/4"-10 Gr5 Z SF Hex Nut   | JM0009921 |
| 8  | Upper Bar Support Arm (UBSA-3)   | JM0003077 |
| 9  | 3/4" x 8" Z L Pin (Header Wagon, c450)                                       | JM0029738 |
| 10 | 3/16" x 2-1/2" Hair Clip Pin (316HP)   | JM0001657 |
| 11 | 3/4"-10 x 8" Gr8 Z Hex Bolt  | JM0080110 |
| 12 | MacDon FD2 Lifting Arm 10" Extension Assembly                                | JM0080137 |
| 13 | Angled Knee Brace Bolt On Lower Weldment                                     | JM0080352 |
| 14 | MacDon FD2 Long Knee Brace Turnbuckle Assembly                               | JM0080221 |
| 15 | Short Angled Knee Brace Clamp Lower Weldment                                 | JM0080200 |
| 16 | TB-48 MacDon FD2 Lifting Arm 10" Extension Assembly Kit with Long Knee Brace | JM0082232 |
| 17 | TB -32, -38, -42 MacDon FD2 Lifting Arm 10" Extension Assembly Kit           | JM0082213 |
| 18 | HD Adjustable Pac Man Weldment Left Hand Thread                              | JM0030422 |
| 19 | 1-1/4"-12 Gr5 PN LH Hex Nut  | JM0019931 |
| 20 | MacDon FD2 Long Knee Brace Turnbuckle Center Pipe Weldment                   | JM0080218 |
| 21 | 1-1/4"-12 Gr5 PN RH Hex Nut  | JM0019930 |
| 22 | HD Adjustable Pac Man Weldment   | JM0021417 |
